South Broward Board of REALTORS® Selects CRS Data Public Records Service

Partnership includes 1,450 MLS members

KNOXVILLE, Tenn. – February 28, 2014 – CRS Data today has announced that South Broward Board of REALTORS® has signed a two-year agreement with CRS Data to be its real estate information source for public records for its estimated 1,450 members. The agreement extends the company’s MLS client base in the southeast where it serves numerous large and small MLS clients.

“The South Broward Board of REALTORS® is looking forward to utilizing the incredible functionality and thorough data that CRS will provide for our members,” said Bill Valdez, Executive Vice President. “The South Broward Board of REALTORS® is proud to be employing their cutting edge technology, which will enable our members to service their clients more effectively and efficiently.”

The South Broward Board of REALTORS® is recognized as a leading provider of real estate information services, data and education in South Florida. The addition will expand CRS Data’s ability to service leading real estate agents in the area, ensuring end customers with more reliable data to support their home purchase decision.

“We are very excited to work with South Broward Board of REALTORS® to provide dependable property data their members can rely on,” said Rob Williamson, director of sales for CRS Data. “As we continue to further meet the ever-evolving needs of our customers, we will rely on our dependable customer service and data expertise to grow our customers’ business.”

Headquartered in Knoxville, Tenn., CRS Data currently provides access to comprehensive property data resources in more than 12 states and 500 counties. The company most recently expanded its data service to include 67 counties in Florida. Servicing bankers, MLSs, appraisers, investors, and other specialty financial customers, CRS Data is focused on providing accurate and timely property data, quality products and unparalleled customer satisfaction.

About CRS Data

For more than twenty years, CRS Data (Courthouse Retrieval System, Inc.) has worked to put powerful, accurate data at the fingertips of its customers.
